### RETURN/REFUND/EXCHANGE POLICY

Your horse, like many, may love our socks but they don't feel like anything your horse has ever had on its legs. Silver Whinnys®, our bandage/barrier sock fit like a new skin, not a bandage or wrap. They may take a bit to get use to. When using any of our socks, Whinny Warmers® or Silver Whinnys® put a pair on early, before noon on first day and **DO NOT ADD ANY MORE SOCKS UNTIL THE NEXT DAY** even if your horse is doing well with the first pair. Always put on the socks early in the day so you can observe your horse through the day to make sure all is well before leaving them on your horse all night. Add the second pair early in the following day if all is well.

As you know, new things can emotionally overwhelm horses. Experienced horsemen and women know an easy gradient to all things new is the path to stress free acceptance. If a horse is to have any issues, they may not readily appear. As with any leg wear, the socks should be at least checked for adjustments in the mornings and evenings. Call us before using them if you are in doubt about fit. Learn more about Compression in our [Support](#) section. Don't use all of the socks on your horse until you know the first pair will work for your horse.

Also go to our [Support](#) section to read more about the Silver Whinnys® when using them to bandage dermatitis, sores or wounds. Stage 2 healing can present challenges to any bandage, our socks included. We have helped a lot of owners heal their horses so we know we can help you too. Sometimes it may mean extra support given to the socks so that they last your horse a long time and stay over the damaged tissue. Before you believe they must be returned, call or email us. We will do everything we can to help you succeed in the solving the problem that led you to our socks. We truly care about helping you help your horse.

Sox For Horses, Inc will refund 30% of your purchase price on used socks. New-unused socks will be refunded at 100% of your purchase price.
